{Breakfast for Kids Program}

We are now in our 20th year serving breakfast to hungry children. We provide breakfast five days a week at Keith Wightman School. We are one of about 44 schools in the city and county with a breakfast program. The program is run by a volunteer staff of approximately 40 men and women on rotating shifts. We serve breakfast as well as providing a food tray (vegetables, fruits, cheese, and crackers) to each classroom so that there is food available for any child in the school.

We are pleased that our leader Jack Byers had a successful operation during the year and will be able to join us during 2014. We also thank the many other volunteers who pitch in to help the program move ahead each year.
