

Change Default Text Size in Safari

Step 1: Open the 'Appearance' window

1. Click on **'Edit'** in the menu bar.
2. Select **'Preferences'** from the drop-down menu.
3. When the **'Appearance'** window opens, ensure that the **'Appearance'** tab is selected (see image below left).

Step 2: Choose the font size for all web pages

1. In the **'Appearance'** tab (shown below left), click on the **'Select'** button to the right of the **'Standard font'** box. This will open the **'Choose a Font'** window (shown below right).
2. Select your preferred text size from the list below the **'Size'** header.
3. Click the small X in the top left corner of the window to exit the **'Choose a Font'** window.
4. Click the small X in the top left corner of the window to exit the **'Appearance'** window.
